

RENEWABLE ENERGY CAPABILITIES

Business Focused Cultural and Heritage Resources Management

We assist renewable energy clients by efficiently and effectively meeting project goals and schedules, saving them time and money. We achieve this by providing technical and regulatory expertise combined with our best-in-the business, all-electronic data capture and processing techniques.

PaleoWest has assisted with the permitting and licensing of well over **500,000 acres of renewable energy development** and we have completed construction compliance for dozens of major multi-year renewable energy and power generation projects.

PRIMARY SERVICES

- Archaeological surveys
- Archaeological excavation, testing, and monitoring

THE PALEOWAY

The nation's first all-digital firm of its kind, PaleoWest has developed a forward-thinking approach to projects, employing a fully digital workflow for data collection and management. We call it the PaleoWay. We use state-of-the-art technology and the latest trends in research and historic preservation to ensure maximum efficiency and that our clients' compliance needs are met.

- Eliminates digitization after fieldwork
- Eliminates redundancies in data entry by autofilling (e.g. names, dates, locations)
- Reduces error by requiring appropriate data in crucial fields
- Improves data security through continuous data backups
- Speeds projects through to completion
- Higher quality deliverables
- Saves time and reduces costs
